

Hi, my name is Ralph If108 15

Looking for love

Male Domestic Short Hair Cat

Ralph: IF108-15 Black & white Ralph, desexed, maybe 6-7 yrs old. He has a coat that's in less than pristine condition. His foster carer has a plan to give him lots of good brushes and see if that helps his skin and fur. After a few long days of hiding out in the garage like a true basement cat, Ralphy was finally trapped and is now safe and warm - and very happy! - in his foster carer's bathroom. Ralphy is a very affectionate and loving boy who loves his people company. He hasn't been tested with other cats or dogs, but he doesn't seem to have a problem with them through the door of the bathroom.

It is possible that Ralph has FIV+ - his snap test detected traces of FIV, though that could have been from a vaccination. He was negative for FeLV after a snap test.
