

# Hi, my name is Harry

Looking for love

## Medium Male Kelpie x Heeler Mix Dog

Harry needs experienced owners or owners who are understand his needs and are willing and able to put the time into him. Ideally he needs a quiet environment ie a rural property or at the least a less populated area like mundaring. He has social anxiety so he struggles in suburbia. This criteria is a must for him. Because of this he needs to be in a home where he can be the only pet with no children so that the time and effort can be put into him. He will require 2-30th ute walks a day with plenty of mental enrichment in the form of puzzle toys and fed from Kongs. Harry is extremely anxious and unsettled. This is manifested as incessant barking and pacing. He can become very demanding and uses an open mouthed muzzle punch to gain attention/access to treats. He is currently on meds and will likely need to be for life.

Harry is not good with visitors to the home-he barks and may snap if the visitor is not careful. He is extremely reactive to the postman and any passersby to the home.
