Small and adorable

Small Male Miniature Fox Terrier Dog

Here's Harry!! 7 year old Mini foxy. I asked him politely to sit there while I got a video or photo for his arrival, and he did!! What a good boy. Upon arrival he was very nervous. Very fidgety and seemingly lost :- (He is very active and would love a walk each day and a garden to call his own He is an inside dog though and loves snuggling up with you each night. Great with other dogs, cats and chickens. Doesn't like guinea pigs! Harry is great with children and being cuddled and handled. Alternatively another family dog he can be with all day MAY suit. \$250 adoption fee includes his desexing. Chip. Vaccination and dental. He will need a bone to chew at least every other day to keep dental disease at bay. Harry does also have luxating patellas at the moment but they are not posing a problem or pain just yet. It may or not be a future issue but there are ways to manage and hopefully prevent the condition from worsening. Harry has settled fine. H...
