McKAYNE - IF108-16 Date of Birth: 10th May, 2012 Rescue Date: 22nd July, 2016 Location: Brentwood, WA DESCRIPTION McKayne is a domestic long hair ginger male adult cat. HISTORY McKayne arrived in the pound in a pretty bad state, with chronic earmites that had caused haematomas in his ears. His ears are 'cauliflowered' as a result of his mites and his general life on the streets as a roaming tom cat. He also had badly matted fur which is slowly being worked on. TEMPERAMENT McKayne is slowly learning to trust humans, and we suspect he has probably been kicked around because of how he has reacted when he thinks people are going to hurt him. He is now accepting head bumps and pats, and has even started to lean up against his people for snuggles. He purrs when being patted! LIKES / DISLIKES McKayne is unfazed by the small, noisy dogs he lives with, and is cautious but gaining confidence around other cats. He spends more time out of his room than in. He likes the back yar...
