

# Hi, my name is Glen

## Looking for love

### Male Domestic Short Hair Cat

Cat Scope: friendly though submissive Dog Scope: good with dogs Child Scope: untested Vet work : completed Medical Notes - Glen has a blockage which affected his kidneys and must be on a special diet to avoid further bladder blockages and keep his kidneys functioning well . Glen requires to be on a diet of KD food for life . About: Glen was part of the Gympie 80-one of 88 cats left behind on a property when their owner left them behind and moved away. Glen is a little shy when he first meets you but once he knows you he is super affectionate and extremely loyal. Like most of the Gympie 80 he is extremely chatty , we believe there in some oriental in them so this would explain the chatty behaviour . Glen is very submissive around other cats and is great with dogs and he would dearly love to find a quiet home to be showered with affection and to share his endless purrs with .
