

Hi, my name is Pepper

Playful

Female Domestic Short Hair Cat

Hi, my name is Pepper and i am long overdue for a home to call my own. I have been in care since 4 weeks old and was struck down with one of the deadliest viruses Panleukopenia. I had a 95% chance of passing away but i fought with everything i had to be where i am today. The staff call me their little miracle but i don't feel any different from any other kitten. I love to play, i love to eat and most of all i love my foster family but now i am on the lookout for something more permanent. I'm a bit shy so would do well with someone who has time to get to know me. Dogs are scary but i suppose i could have a feline brother or sister, i'm not really sure as i have been on my own for a while. If you sound like the human for me please come and see me as i'm very eager to meet you.

Pepper has had 2 out of 3 kitten vaccinations. All kittens are wormed and flea treated upon admission and continue until they leave for their new homes. Each kitten must complete a full 2 weeks of isolation before...

Age	4 years 8 months
