

Hi, my name is Shelbie

Looking for love

Medium Female Mixed Breed Dog

Shelbie has recovered from having parvo and is now looking for her FURever home. She is going to be an active dog so we will need an active family. 'We Three Survivors.... Plus One!!' We three have all looked the dreaded "parvo" in the face and have fought a brave battle to vanquish this deadly foe. Thanks to Gillian and her team, plus lots of support from the PHC members, we live to fight another day.... We go by the names of HUEY, TIKVAH and SHELBY and we all spent varying times at the vet at around the same time. Now we are going through the final stages of our recuperation together so we have become the best of buddies.... We even have a slightly older mentor in DOLLY who also survived Parvo a couple of months before us. Dolly has shown us so much patience even when we all wrestle her at the same time ... she just takes it in her stride She has been like a protective older sister and has been such a sweetie. We are all starting to put on some of the weight we lost thanks to some yummy rice, pasta and vegetable dishes with chicken or beef... We even get to have...

Age	1 year 7 months
