

# Hi, my name is Clancy

## Affectionate/Dog friendly

### Male Domestic Short Hair Cat

Clancy is around 18mths old and is a big boy who loves life. untreated. Clancy, like a lot of cats, has a dual personality - a blend of Mr Affectionate and Mr Independent. He isn't suited to a home with children under 5, as they interrupt his inner zen, and really - who wants to be responsible for disrupting the inner zen of such a beautiful boy? He loves to give you head-butts, especially when you're bent over picking something up or if you're searching for something in a cupboard. It's his way of saying "hey human - watcha doin'?". Clancy loves head & chin scratches & doesn't mind a cuddle. He's not a shy cat, but unless you are interesting he won't bother with you. He does everything on his terms. But his curiosity does get the better of him so when he does come over you'll get kisses, head butts and very loud purrs. His future family needs to be prepared for a four-legged furry bodyguard to accompany them whenever nature calls... He would also be happy sleeping on his human's bed if allowed. He also likes to snuggle up with you on the couch and hear about your day....
