

Hi, my name is Baby Cat

Easy going!

Male Domestic Short Hair Cat

Say Hello to Baby Cat! Baby Cat feels he has matured and would love his new family to choose a special name just for him. He is a smoocher and doesn't meow loudly or often. A calm gentleman who will settle once he has your attention. At night he likes to sit on your lap with his paws stretched out on your chest, and snuggle up with you at lights out in bed. Being an older gentleman, his foster carer feels that he would thrive as an only cat that has all of your attention; he can be a little shy. He does currently live with another male cat, George (also up for adoption), and has no issue being a big brother if required. He plays with George in rough and tumble, but they are not strongly bonded so is offered for adoption alone but would be suitable for a house with other cats. Baby Cat is 6 years young, easy to please and is vaccinated, microchipped, de-sexed and wormed. He would love to find a forever family that will spoil him and give him the attention he deserves.
