

Hi, my name is Fluffy

Looking for love

Male Domestic Medium Hair Cat

UPDATE 23/3/2020: Yesterday was a bit of a breakthrough for the big Fluff. He allowed me to stroke him for quite a long time without there being any food involved. In the last few weeks he has also started showing affection for the other cats here, not always standing back and watching warily. He is definitely still a work in progress, even after around 2 years, but he'll get there. You do have to wonder what happened to him on the streets as a kitten to frighten him so. :(Some felines just can't be tamed, baby. They call me the Charlie Sheen of kitty-cats. And just like Sir Charles Sheen, I too don't take kindly to being on the ass-end of an impromptu worming. Oh sure, they tried to domesticate me with their fancy monogrammed scratching posts, but me, I'm looking for the real thing, so an outdoor sitch would be more than dandy. Ideally you'll be a brewery owning rock star seeking a wily pest hunting renegade, but I'm open. Though if I may digress for just a moment here... Fluffy? Fluffy?! Pffft. Unless they were being ironic, their knack for naming pussouirs...
