

Hi, my name is Torin

friendly affectionate

Male Oriental Cat

Torri and her three siblings came at the same time as Erica and her family. They were found out near Clarence Way not far from a creek in the bush, they were young and friendly not at all wild. They were picked up put in a box and left at our gate with the hope we would find them before the dogs or the eagles. They are only slightly younger than Erik and his family. All are black with little tiny tufts of white in their ears or their chest or under their chin with the exception of Toshi. They are all very friendly affectionate young cats. They are all desexed, vaccinated, micro-chipped, regularly wormed and deflead ready for their new homes. My micro-chip is 900079000382715
