

Hi, my name is Heidi

Looking for love

Female Domestic Short Hair Mix Cat

HEIDI is an 18 month old female desexed tortie. She has inherited the "shyness gene" common in torties but is a sweet and gentle girl. When she came into care as a kitten, and for some time after, she was difficult to catch but always happily hung around her carer family and followed them around the property which she does to this day, with her Animal Welfare League mate Kallie. Patience and a lot of handling and interaction has helped her settle and more easily let herself be picked up. Despite her shyness she never scratches or bites, loves every other cat she has met instantly and they like her too straight off. She would need to be indoors or in a cat run for a few months initially, which she would be fine with. If you love cats, are patient and enjoy developing a strong bond with a shy cat, Heidi could be for you. Heidi is desexed, chipped, vaccinated, worm/flea treated and vet checked. DOB 1/10/18.
