## Male Short-hair Guinea Pig

Recently this pair of boys came into rescue late one night along with two other guinea pigs that we're female. One of the females was extremely unwell and passed within an hour or so.

Sadly their owner had died and the family reached out to Cavy Central for somewhere for the guinea pigs to go. Both sets were in pairs, had been living that way, and these two boys together. They have been in rescue now for many months and are utterly delightful with each other. We estimate that they are around 2 to 3 years of age. The darker coloured boy has had a poke injury at some point but his eye has limited vision and not in need of any further attention. This is a very old injury and it just adds to his huge personality. Their owner has taken very good care of them and we know this from how family spoke about her. She would love them to find a great home and be loved.
