

Hi, my name is Lovely Lady snugglebug

Female Domestic Short Hair Cat

Meet Lady! This smoochy girl is around 18mths and absolutely lives for scratches and snuggles! She is FIV positive (more about that below) but don't let that deter you, she is an active, playful and curious kitty who deserves a forever home of her own. A little shy and timid to begin with, once you've gained her confidence she will be all over you - especially if you're offering ham! Lady is best suited to a quiet home with a loving family who have the time to give her the attention she needs and don't mind the 7am/9pm zoomies all around the house. Lady gets along with other cats, and would love to have a friend to keep her company, or an owner who is home often for company. Please note that Lady is FIV+, which means that while she is immunocompromised (similar to HIV), if kept strictly indoors, up to date on flea/worm treatments and yearly vaccinations, and fed a raw healthy diet, she can still live a long healthy life. Cats with FIV rarely progress to AIDS (unlike the human virus), in fact only in 5% of cases, which means 19/20 cats will likely die of old age before anythi...

Age	1 year 9 months
