

Hi, my name is Nemo / Tinkerbelle

Super shy guy

Male Domestic Medium Hair Cat

Nemo is a sweet gentle boy who isn't the biggest fan of being picked up, though once he feels safe around you his purr motor doesn't stop. He looks to his sister Tinkerbelle for reassurance when new things are introduced. Before coming into care they didn't have much human interaction so will need time to feel safe at their own pace. Nemo and Tink prefer to be inside only or in a run due to their background. They would be great candidates for harness training for supervised outside time. Both Nemo and Tinkerbelle are shy and timid kittens who are nervous of new people, fast movements and loud noises. Once they warm to you they have so much love to give, and will purr very loudly for your undivided attention.

They are looking for a purrrfect forever family together, where they can continue to grow and relax. Their joint adoption fee has been reduced to \$250 for the pair. Please note: Long transport would simply be too traumatic for this pair so they are not available for interstate adoption. They are only available to those who are able to collect directly from our group in Glad...
