

# Hi, my name is Florette

## I'm too endearing!

### Female Short-hair Guinea Pig

Florette came from a large group of female guinea pigs that were brought into Cavy Central on the 17th of June 2020. There were many females in the group as well as young pups, and only 1 older male. We estimate she and the other adult guinea pigs to be 7 - 8 months of age. They were not lactating but were either pregnant in appearance or not. So they had to wait until we were sure that they were not pregnant or if they had young that they were weaned before finding homes.
