

Hi, my name is Estelle And Billy Located In Preston

Beautiful Bonded Pair

Male Domestic Medium Hair Cat

Estelle and Billy are a bonded mum and son pair. This means that they will not be adopted separately and will only go to a home together. Please do not apply if you are only interested in one of these guys. Billy and Estelle came into care together. They arrived incredibly scared of humans and needing to learn what it is to be loved in a warm and caring home. They are both incredibly sweet cats and don't have an aggressive bone in their bodies. They will let you pat them in their hidden beds and even enjoy it. Although won't let you pat them out in the open just yet, it is still a bit scary for them. Billy has started to become a lot more confident in the last couple of weeks. He has decided that he wants to play with his younger foster siblings and has remembered what it is like to be a kitten. You will see him run around after them, play wrestle with them and even just sit and watch them play amongst themselves. This has been a great confidence builder for Billy, he sits watching and learning about human interactions. Estelle is MUCH more cautious than Billy. She will accept...
