

Hi, my name is Alice

Beautiful and unusual

Female Domestic Short Hair Cat

We've never had a cat quite like this one. Blue-eyed ALICE is different in so many beautiful ways. Her eyes aren't just blue. They're a pale grey-blue. Her coat isn't just silvery white. It's silvery white with caramel shading. And she doesn't just have tortie points. She has tortie points with a striking licorice stripe down her nose. Added to that, Alice has a sparkling white chest and socks. Quite the prettiest girl around. Temperament-wise, this young adult likes to avoid confrontation so keeps her distance from the resident alpha female cats, though she gets on well enough with the laid-back males. Alice is not that fussed on children, preferring the more predictable company of adults. At night, when the other felines have gone to bed, she comes into her own. She loves to snuggle up with her foster mum at her desk while she works and generally follow her around from room to room. Alice is desexed, microchipped and vaccinated and her adoption fee is \$250. She is an indoor-only cat.
