

Hi, my name is Ruby

Great House Guest!

Medium Female Labrador Mix Dog

Ruby is a fantastic house-guest who loves family life. She gets along well with children and adores her human friends. Ruby lives for endless cuddles and soft toys - she just wants to be your baby! Ruby is house-trained and will let you know when she wants to go outside for a bathroom break. She can perform adorable tricks, like shaking hands and high-fiving for treats and she is a fast learner! Ruby is looking for a loving and patient home with strong boundary-setting and no other animals. She is looking for a home who is committed to continue working with our team to overcome her separation anxiety and on-lead fears. Ruby is a strong girl and needs a human friend with a firm grip on the lead while she learns to overcome her fears! She is currently taking medication for her anxiety and this will need to be continued long-term within her furrever home. Preference will be given to applicants who have had experience with dog training and anxiety before.

Ruby takes ongoing...
