

# Hi, my name is Jesse

## Take a chance!

### Male Domestic Medium Hair Cat

Meow there fur-ollowers! My name is Jesse, and I'm looking for my new fur-amily. I haven't had an easy time since coming into foster care. Initially I was very nervous of humans, but with the patience of my foster carer, and the support of my confident cat & dog foster siblings, I have come to learn that scratches and lap sits are very enjoyable. I've actually decided cuddles are quite good and love climbing onto any available lap. I'm very vocal around dinner time and will let you know if your service isn't up to my standards! I'm extremely social with other animals, and would happily share my home with another cat or dog. Currently I'm on a Cyclosporine trial for my allergies and ideally at a later date, I would do allergy testing and desensitisation. I will need to be an indoor kitty but other than that I'll be just like any other suburban cat. If I could have one request for my new family - I would ask for a feline friend to keep me company but to the right home I could settle on my own. I can be a bit flighty when people make sudden movements so I would prefer a family ...
