### Large Male Greyhound Dog

6.5 yo handsome gentleman Spotty is ready to find his perfect forever people. Since coming to Amazing Greys, Spotty has settled into “couch potato” life very well. Having clearly read the memo, one of his favourite activities is snoozing on the couch. He does find a good squeaky toy hard to resist though. Spotty is currently in foster care with 1 younger greyhound, 2 pointers, and a whippet. He tolerates all their antics with grace and humour.

But like the dignified gentlemen he is, indulges in only a short play before resuming his supervisory role on the couch. Spotty will ideally go into a home with other med/large dogs for companionship. However, he can be an independent soul and we believe would be happy as a solo dog too with part-time workers or people not out of the home for long periods.

Spotty is a generally good boy in the home but loves his food and will counter-surf if given the opportunity. Being a tall lad, his new home will be careful to keep goodies out of reach. Spotty would like a home with some outdoor space, mostly because he likes to wee straight
