

Hi, my name is Arnie

Active and Energetic

Male Domestic Short Hair Cat

Hi there, nice to meet you, I'm Arnie! I have been through quite a lot recently. I've moved interstate, been to strange medical clinics and met lots of nice people. I'm such a good boy and love hoomans so much. I know you will love me too! I'm not too sure what this means but I was saved from being put to sleep in a rural nsw pound recently. My foster mum calls me lucky as I was rescued an hour before I was put to sleep! I am possibly THE most attention seeking and human loving cat you have ever met in 6 kgs of pure muscle! I love talking to hoomans and soak up cuddles as much as I can. When I get excited from all the attention I can even snort! My foster mummy thinks I might have some oriental in me, as I am so vocal! I am very energetic and need a home that has lots going on and some one who will be committed to regularly playing with me. I think I would be bored if I was home alone by my self all day! Another hooman will do just fine though! Now all I need is a forever home with my own family to love. I'm not asking for much....just love! Speak soon! Arnie xoxo
Arnie ...

Age	12 months
Vaccinated	Yes
