

# Hi, my name is Timmy

## Luscious Long Locks

### Male Long-hair Coronet Guinea Pig

Timmy was born in care so has been with me a while and he did sadly break his leg as a bub, but it has healed well. This does mean he could get arthritis as he gets older and need pain medicine. He is a very talkative boy and will wheek when being picked up, if he is put back down next time he'll just wheek even harder. He doesn't mind being picked up, but would rather be down and try to train you into doing so. Being a long coat piggy he does get a butt trim to keep the hair clean and a cage without ramps is preferable, ramps are more work for his leg than flat surfaces. His adoption fee is halved due to the fact he may need continual medication and treatment as he ages. He lives with all the other Desexed boys in a 3m x 1.5m aviary

<b>Age</b>	1 year 1 month
