

Hi, my name is Mcgonagall

purr machine

Female Domestic Short Hair Cat

Meet Mcgonagall Mcgonagall came to us with her two other siblings at the age of 5 weeks old, they have been in foster care since and are now ready to find their new homes Mcgonagall is a little bit reserved when in a new environment but it doesn't take long for her to settle in and beg for attention. Compared to her siblings, Mcgonagall is the calmest and most affectionate kitten, she is the first to come up to the cage and starts her purr motor the moment she see's you. Mcgonagall would suit any home with time and patience but we are sure she would love to have another cat friend for company especially while she settles in.

Mcgonagall is spayed, microchipped and up to date with her vaccines. She will need a booster in a months time, this will be included in the adoption fee so no additional cost to the adoptee as long as they are brought to one of our three clinics

Age	4 months
