

# Hi, my name is Kiki The Shy Cat

more fun than fish!

## Female Domestic Short Hair Cat

Kiki is a beautiful tabby and white cat with green eyes who needs a patient human. She's extremely shy but she'll spend the day waltzing around the place with her tail in the air looking gorgeous, laying on your bed (as long as you don't get on it) and playing with the other cats (she's very friendly with other cats). She's a very quiet cat and doesn't meow much, but that doesn't mean she won't talk to you when she comes out of her shell a bit more, at the moment she communicates by looking at you when she wants something. Kiki is super playful with toys, the scratching post and with her bestie in foster care, Buddy Boy. She's food motivated and has learned how to high five for food, it's so cute! Kiki is still not a fan of being touched by humans, but with patience and behavioural work, she will come round. We can partner you with one of our foster carers for any advice you might need. So if you want the enjoyment of seeing this gorgeous little cat play, sleep, pounce and look at you with her stunning green eyes, and don't need the touchy feely factor, then submit an enquiry now...

<b>Age</b>	1 year 9 months
<b>Vaccinated</b>	No
