

Hi, my name is Purple

Lovely pup

Medium Female Mixed Breed Dog

Purple is full of life, playful, and affectionate. All the wonderful qualities of a happy, healthy pup. Purple comes from a litter of 6 pups that came into the care of the famous "Dog lady of Yuendumu" a remote community in the NT with their mum which tiny pups.

<https://www.facebook.com/aussiedesertdogs> Mum has gone back to her home, 2 pups have homes in the community, and 4 came to Sydney to find their forever homes. They are approx 5 - 6 mths old, very healthy pups of unknown breed. We don't know their breed, we never do. We guess/estimate they will be medium-sized dogs perhaps eventually 20kg, this is only a guess???? Purple flew from Alice Springs to Sydney and is in foster care in Kingsford near the Uni of NSW She Microchipped, desexed, vaccinated and parasite treated. PLEASE NOTE Purple has come from an area of the NT where there have been cases of Ehrlichiosis a tick-borne disease introduced to Australia last year. (This is a reportable disease) We are testing all the dogs coming from the NT; Even though Purple tested negative for Eh...

Age	7 months
Vaccinated	Yes
