

Hi, my name is Tully

Curious and sweet

Male Domestic Medium Hair Cat

Tully is a little shy, he is still learning to trust, he is making such great progress. Tully is a sweet, well mannered and kind boy. He is curious and always likes to see what you are doing, he likes to try new food. He likes his food. With attention and patience, Tully will be a loving confident little guy. He will need time to settle in and he will need to be taught that everything is OK. Tully sleeps on my bed, near me on the couch and sits with me at the desk while I work. He is very use to me, but will need time with his new humans. Tully loves to chase bugs, I think he thinks he is doing a service by chasing them all away. Tully would do well in a home with another cat or cat friendly dog. It would be great if he can have access to a yard to eat grass and chase bugs. Tully would spend most of his time inside, but daily access to a yard for an hour would make him a happy little guy! The black cat in the photos is Cree, he is Tully's brother. Cree is also available for adoption if you are looking for an instant pack!
