

# Hi, my name is Pepper Snuggles

## Looking for love

### Male Domestic Short Hair Cat

Pepper is the more quiet one of the litter but definitely with the most character. This handsome green-eyes black kitten, with distinctive stripes and streaks of white on his chest is the one to greet his human first with a roll and a rub on the feet, a gentle cuddle and lots of kisses. He doesn't like to be held much but enjoys being around his siblings and his humans for comfort and company. Pepper is very curious and playful, he can convert anything into a toy and will run around exploring everywhere. His latest tricks is climbing everywhere and hanging off like a little Tarzan. He is very attached to his siblings and will ideally be adopted with his almost-identical brother. He will be a great addition to a family with young cats and kids as he needs attention and playmates around him. Pepper will need to be adopted with one of his siblings or his mum, or to a home with a young cat-friendly cat.
