

Hi, my name is Parker

Gentle girl

Female Domestic Short Hair Cat

Parker had a rocky start to life & has had to learn how to be a cat; not a full time hunter. She still startles easy & will run away when she hears loud noises or you move too fast - but she's doing so much better now that she's had the time to realise she is safe now. Parker will need to go to a home that has cats older than her so she can feel safe and protected. She has been around young children but gets scared easily when they squeal etc so a home without small children would best suit her. Parker loves to sleep in front of the heater when it's cold or in the sunny spot by the window when it's warm; she will sleep on the edge of your bed & follow you around once she's confident. A small room or space just for her will help her settle when she goes to her forever home; she will get overwhelmed & hide otherwise.
