

Hi, my name is Maxie & Millie

Active & cuddly

Male Domestic Medium Hair Cat

This gorgeous bonded pair of tabby siblings are absolute little comedians and the closest of friends. Their antics will keep you entertained for hours on end. Found fighting for life, in a shed in Pascoe Vale after Mum seemed to have abandoned them, these babies definitely are survivors. Bottle fed from the tender age of 2 weeks, here we are nearly 4 months later with a couple of highly social and extremely active cuties. After a tough start in life these babies are now ready for adoption. This is Maxie, he has a gorgeous soft fluffy lighter grey coat of the two, more laid back and will come for a cuddle a smooche and purr. Maxie loves to have a chat when he wants something. Just a big sook really. . . definitely a lap sitter and bed cuddler. Millie is a very independent and confident little miss. Although she's a tad smaller than her brother, she is the boss and gives as good as she gets. Millie has amazing markings and a truly cheeky nature. With no Mum and no other siblings these two are bonded and to be adopted together. Please refer to her profile for pics
