

Hi, my name is Buddy

Pals for Life

Male Domestic Short Hair Cat

Petey & Buddy lived together with other cats on the streets in Prairiewood and the only contact they had with people was when they were fed as part of the colony. As a result they didn't grow up with people and are very independent and at SAFE they have pretty much kept themselves to themselves. Petey was trapped first as we could see that he had something wrong with his right fore-leg. Our vet diagnosed an old injury & felt the best thing was to amputate the leg. Petey is just over 2 years old and is quite shy but he had bonded with a special friend in the colony, so to help him recover we decided to reunite them and Buddy arrived a few weeks later. Buddy is Petey's wingman and very protective of him. He is reasonably friendly and will tolerate pats when eating. However he can sometimes be quite reactive, maybe because of the protective role he has taken on. Petey is generally approachable but currently reluctant to be touched. He looks up to, and loves being with Buddy. They play and wrestle and often curl up to sleep together. Both boys are healthy with shiny black...
