

# Hi, my name is Happy

## Looking for love

### Male Bird

Hi everyone my name is Happy and I am looking for my new forever home . Let me tell you a few things about myself . I am a beautiful rainbow lorikeet and require a particular diet . I mostly live of nectar and would require to be fed fresh supplement made nectar 2-3 times daily . Unlike other birds I don't eat bird seed. I can also eat certain types of fresh fruit , green vegetables and some edible organic flowers . Since I am a nectar eating bird I can be very messy so please keep that in mind if you are considering adopting me . During my time here I have met a beautiful bird called Zippy. We have become the best of friends and we would both love to go home together in a big aviary I also would love to have a large bird aviary so I am able to spread my wings and fly from perch to perch . I love having things to do and love chewing things so please give me enrichment and branches in my enclosure ( need to make sure the type of branches are safe for me ) . I can be particularly loud at times so please keep this in mind if you have neighbors close by . ...
